

HANIF SHEIKH

WEB APPLICATION DEVELOPER

ABOUT ME

I am a highly skilled and passionate web developer with a deep understanding of front-end and back-end technologies. I thrive in dynamic and collaborative environments, leveraging my strong problem-solving skills to create innovative and efficient web applications. My ability to translate client requirements into functional and visually appealing websites has been instrumental in achieving client satisfaction and project success. In terms of technical skills, I am proficient in HTML, CSS, JavaScript, PHP and have extensive experience with various frameworks and libraries, such as React, Vue & Laravel. I am also well-versed in server-side programming languages like PHP, and Node.js, allowing me to develop robust and scalable web applications.

COMPETENCE

- Proficient in popular front-end frameworks like React or Vue, and knowledgeable in UI/UX principles, cross-browser compatibility, and web accessibility.
- Competent in building RESTful APIs, working with databases (SQL or NoSQL), and implementing server-side logic and business rules.
- Comprehensive understanding of popular design patterns such as Singleton, Factory, Observer, Strategy, and MVC (Model-View-Controller).
- Proficient in debugging code, optimizing performance, and ensuring application security.

SKILLS

FRONT-END: React.js, Vue.js, Next.js, TailwindCSS

BACK-END: PHP, Laravel, Express.js, Node.js

DATABASE: MySQL, PostgreSQL, MongoDB

TOOLS: VSCode, Git

DESIGN TOOLS: Figma, Adobe Photoshop, Adobe Illustrator

OPERATING SYSTEM: Linux, Windows
